Proven ability to collaborate with clients to understand their vision and deliver innovative digital solutions that enhance user experience and drive business results.

WORK ON PROJECT

Django Project

Saloon Management

2023-2024

- 1. Project Description
- The Salon Management Website is a web-based platform
- designed to streamline and enhance the operations of a salon.
- It serves as a comprehensive management tool that assists salon
- owners and managers in effectively managing their daily tasks,
- improving customer experience, and optimizing business
- performance.
- The website encompasses various features, including
- appointment scheduling, customer management, inventory tracking, employee
- scheduling, financial reporting, online payments, marketing and promotion,
- analytics, and a
- mobile-friendly interface

2. Description About my asp.net knowledge

- I have studied asp.net through college, so my practical knowledge is limited. However, I have a good understanding of the theory. I also have some knowledge of Java and its various packages. Additionally, I have successfully solved a form validation question using Microsoft Visual during an exam. I would be thrilled to have the opportunity to learn more about these topics at your company. It would be a great addition to my resume.

3. Description about my knowledge

- Proficient in JavaScript, PHP, Django, and Python.
- Completed an online JavaScript course and gained hands-on experience with Django projects.
- Solid understanding of website functions and JavaScript fundamentals.
- Familiarity with React.
- Experienced in backend development using Django and Python, including SQL connections.
- Skilled in PHP with knowledge of validation and SQL query integration.
